CONTENTS

NUMBER 1

J. D. Weber, John F. Carroll and Dora K. Hayes	1	Synthesis of acetals and esters of propargyl propenyl and propyl alcohols and the bioassay of these and related compounds as fumigants against *Anastrepha suspensa* (Loew) larvae
D. P. Giga and R. H. Smith	9	Egg production and development of *Callosobruchus rhodesianus* (Pic) and *Callosobruchus maculatus* (F.) (Coleoptera: Bruchidae) on several commodities at two different temperatures
F. Marec	17	"Black distal area", a new mutation affecting wing pattern of *Ephestia kuehniella* Zeller (Lepidoptera: Pyralidae)
R. A. Longstaff and H. J. Banks	21	Simulation of temperature fluctuations near the surface of grain bulks
P. F. Credland and K. M. Dick	31	Food consumption by larvae of three strains of *Callosobruchus maculatus* (Coleoptera: Bruchidae)
Harish Chander and S. M. Ahmed	41	Laboratory evaluation of natural embelin as a grain protectant against some insect pests of wheat in storage
P. Golob, J. R. Cox and K. Kilminster	47	Evaluation of insecticide dips as protectants of stored dried fish from dermestid beetle infestation
George N. Mbata	57	Studies on the susceptibility of groundnut varieties to infestation by *Plodia interpunctella* (Hubner) (Lepidoptera: Pyralidae)
Paul H. Adams	65	Fate of chlorpyrifos-methyl on single wheat kernels
D. E. Evans	73	The influence of rate of heating on the mortality of *Rhyzopertha dominica* (F.) (Coleoptera: Bostrychidae)

NUMBER 2

D. E. Evans	79	The survival of immature grain beetles at low temperatures
Ahmad A. Barakat, Pardul Khan and A. M. Alabdul Karim	85	The persistence and activity of permethrin and chlorpyrifos-methyl sprays on jute and woven polypropylene bags
Peter F. Credland	91	Effects of host change on the fecundity and development of an unusual strain of *Callosobruchus maculatus* (F.) (Coleoptera: Bruchidae)
A. Boughdad, Y. Gillon and C. Gagnepain	99	Effect of *Arachis hypogaea* seed fats on the larval development of *Callosobruchus maculatus* (F.) (Coleoptera: Bruchidae)
H. J. Banks and A. Pinkerton	105	Bromine-containing residues resulting from fumigation of grain with methyl bromide–carbon dioxide mixtures
Glenn W. Chapman Jr and James A. Robertson	115	Moisture content/relative humidity equilibrium of high-oil and confectionery type sunflower seed
J. A. Coffelt and K. W. Vick	119	Sex pheromones of *Ephestia cautella* (Walker) (Lepidoptera Pyralidae): influence of mating on pheromone titer and release rate

J. E. Baker 125 Electrophoretic analysis of amylase isozymes in geographical strains of *Sitophilus oryzae* (L.), *S. Zeamais* Motsch., and *S. granarius* (L.) (Coleoptera: Curculionidae)

NUMBER 3

Hussain F. Alrubeai 133 Growth and development of *Ectomyelois ceratoniae* (Lepidoptera: Pyralidae) under laboratory mass-rearing conditions

T. I. Ofuya 137 Susceptibility of some *Vigna* species to infestation and damage by *Callosobruchus maculatus* (Fabricius) (Coleoptera: Bruchidae)

S. U. K. Khattak, M. Hamed, R. Khatoon and Tila Mohammad 139 Relative susceptibility of different mungbean varieties to *Callosobruchus maculatus* F. (Coleoptera: Bruchidae)

Sylvia Henderson 143 A mean moisture content–equilibrium relative humidity relationship for nine varieties of wheat

G. Rama Devi and H. Polasa 149 Interference in toxin production among toxigenic *Aspergillus* species

Bh. Subramanyam, L. K. Cutkomp and B. Kouable 151 Effects of short-term feeding by adults of *Prostephanus truncatus* (Horn) (Coleoptera: Bostrichidae) on shelled maize

J. F. Germain, J. P. Monge and J. Huignard 157 Development of two bruchid populations (*Bruchidius atrolineatus* (Pic) and *Callosobruchus maculatus* (Fab.)) infesting stored cowpea (*Vigna unguiculata* Walp) pods in Niger

P. D. Cox 163 Cold tolerance and factors affecting the duration of diapause in *Ephestia kuehniella* Zeller (Lepidoptera: Pyralidae)

P. P. Singh, P. S. Bedi and D. Singh 169 Use of organic acids for protecting moist wheat grains from microbial colonization during storage

A. Delobel and P. Malonga 173 Insecticidal properties of six plant materials against *Caryedon serratus* (Ol.) (Coleoptera: Bruchidae)

P. R. Samson and J. A. Keating 177 Effect of relative humidity on the biological activity of insecticides in impregnated paper assays

Announcement 183

NUMBER 4

George Mathew 185 Insect borers of commercially important stored timber in the state of Kerala, India

D. P. Rees 191 Laboratory studies on predation by *Teretriosoma nigrescens* Lewis (Col.: Histeridae) on *Prostephanus truncatus* (Horn) (Col.: Bostrichidae) infesting maize cobs in the presence of other maize pests

Graham J. Holloway and Robert H. Smith 197 Sexual selection of body weight in *Sitophilus oryzae* (L.) (Coleoptera: Curculionidae)

Hayward G. Spangler 203 Ultrasonic communication in *Corcyra cephalonica* (Stainton) (Lepidoptera: Pyralidae)

H. J. Banks 213 A continuous, cumulative procedure for analysis of phosphine

Carl Reed 223 The precision and accuracy of the Standard Volume Weight method of estimating dry weight losses in wheat, grain sorghum and maize, and a comparison with the Thousand Grain Mass method in wheat containing fine material

M. E. H. Shazali 233 Weight loss caused by development of *Sitophilus oryzae* (L.) and *Sitotroga cerealella* (Oliv.) in sorghum grains of two size classes
